

Senior Full Stack Developer

DR Gaming Technology is a global supplier of integrated casino management solutions for the gaming industry and currently looking for a Senior Full Stack Developer to join its new Development team in Malta. As the company is growing bigger, with development offices all around the world, the goal is to create an internal framework containing reusable components for web application development. This will include standard “look and feel”, translations, authentication, 3rd party interface implementation, etc.

Responsibilities

- Develop and maintain a Front-end framework to be used for future application development in the development offices in Belgium, Austria, South Africa and Malta
- Create a proper developer’s documentation and keep it up-to-date
- Collaborate with other development teams with in the DRGT group

Minimum Qualifications

- Degree in Computer Science or equivalent work experience
- Proficiency in Front-end Coding and Design (JavaScript, CSS, HTML, jQuery, and libraries or frameworks such as React, Angular, Backbone)
- Experience designing, implementing and using RESTful Web Services.
- Comprehensive knowledge and experience with user interface development, methodology, rapid application development, and designing responsive usable, intuitive web applications.
- Experience developing reusable components
- Ability to work effectively, efficiently, and independently without direct supervision

Additional Qualifications

- Experience with Unix/Linux
- Experience with C/C++
- Demonstrated ability to work in a team environment as a consistent, dependable performer with an excellent work ethic
- Experience with Agile Frameworks such as Scrum or Kanban.
- Familiarity with scripting languages such PowerShell or Unix shell scripting.
- Solid understanding of version control principles, preferably using Git.
- Experience Continuous Integration, Continuous Deployment, Automated Testing.
- Ability to communicate succinctly and accurately in verbal and written English to both technical and business audiences
- Demonstrates innovative thinking and initiative
- Familiarity with relational databases such as MySQL, Postgres or SQL Server
- Experience in casino industries
- Willing to travel

Kindly send you CV to Nigel Witty (nigel@drgt.net).
